

Block of Services Contract (Chamber Member RATES 2024)

A quick overview of the service package concept in general is that a client pre-pays for a certain amount of service credit and they get a bonus credit and then that full total credit is used for whatever services they decide to use and are valid for two years and can be added to at that initial rate at anytime up to the two years.

The main packages are as follows:

\$2500 gets a 15% BONUS = \$2875 credit for \$2500 prepaid amount or \$375 Bonus.

\$5000 gets a 20% BONUS = \$6000 credit for \$5000 prepaid amount or \$1000 Bonus.

\$7500 gets a 25% BONUS = \$9375 credit for \$7500 prepaid amount or \$1875 Bonus.

\$10000 gets a 30% BONUS = \$13000 credit for \$10000 prepaid amount or \$3000 Bonus.

Then that credit is billed against with the actual services you actually use and you will be informed of the costs and the balance as often as you would like.

A few examples:

Quick photo shoot with DSLR camera and natural lighting would be \$125 per hour billed against the credit you have.
Video shoot with Single 6K Black Magic camera and natural lighting would be \$175 per hour billed against the credit you have.

Full green screen HD two camera video shoot with professional audio, lighting and teleprompter, slider dolly, gyroscope jib etc. would be \$350 per hour billed against the credit you have.

Having the block for two years also locks you into the current year's prices.

If my prices go up next year you will still have this year's pricing.
